BW Ideol AS - Stabilization and over-allotment notice

Reference is made to the stock exchange announcement by BW Ideol AS ("BW Ideol" or the "Company") on 12 March 2021 regarding the Company's successful completion of a private placement (the "Private Placement") in connection with the admission to trading of the Company's shares on Euronext Growth Oslo.

Carnegie AS (the "Stabilization Manager") may, on behalf of the Managers (as defined below), engage in stabilization activities of the shares of the Company (the "Shares") from today to and including 16 April 2021 (the "Stabilization Period").

As part of the Private Placement, the Managers have over-allotted 1,595,745 Shares to the applicants in the Private Placement, which equals 15% of the 10,638,298 new shares allocated in the Private Placement. In order to permit delivery in respect of over-allotments made, the Stabilization Manager, on behalf of the Managers, has borrowed a number of Shares (the "Over-allotment Option") equal to the number of over-allotted Shares from BW Offshore Holding Pte. Ltd. ("BW Offshore Holding") which will be redelivered to BW Offshore Holding upon expiry of the Stabilization Period.

Further, the Company has granted the Stabilization Manager an option (the "Greenshoe Option"), which may be exercised on behalf of the Managers, to require the company to issue a number of additional new shares equaling up to the number of borrowed shares at a price per Share equal to the offer price in the Private Placement of NOK 47 per share (the "Offer Price"). The Stabilization Manager may use the Greenshoe Option to close out short positions resulting from over-allotments made as part of the Private Placement, and only to the extent such short positions have not been closed out by shares acquired by the Stabilization Manager when conducting the stabilization activities.

The Stabilization Manager may effect transactions with a view to support the market price of the Shares at a level higher than what might otherwise prevail, by buying Shares in the open market at prices equal to or lower than (but not above) the Offer Price. There is no obligation on the Stabilization Manager to conduct stabilization activities and there is no assurance that stabilization activities will be undertaken. Such stabilizing activities, if commenced, may be discontinued at any time, and will be brought to an end upon or before the expiry of the Stabilization Period.

If stabilization activities are undertaken, the Company will publish information on the activities no later than seven trading days following such transaction(s). Further, within one week after expiry of the Stabilization Period, the Stabilization Manager will publish information as to whether or not price stabilization activities were undertaken. If stabilization activities were undertaken, the statement will also include information about: (i) the total amount of Shares sold and purchased; (ii) the dates on which the stabilization period began and ended; (iii) the price range between which stabilization was carried out for each of the dates that stabilization activities were undertaken, as well as the highest, lowest, and average price paid during the stabilization period; and (iv) the date at which stabilization activities last occurred.

Any stabilization activities will be conducted in accordance with Commission Delegated (EU) 2016/1052 as implemented into Norwegian law by Section 3-1 of the Norwegian Securities Trading Act.

Securities Trading Act.

Net profits from stabilization activities, if any, will be to the benefit of BW Offshore Holding, while the Company will receive the proceeds from any shares sold under the Over-Allotment Option if, and to the extent that, the Greenshoe Option is exercised.

Carnegie AS and Nordea Bank Abp, filial i Norge, acted as Joint Managers and Joint Bookrunners (the "Managers") for the Private Placement.
